

Ready for Your Rebate?

Follow these simple steps

1. Confirm the details

- You are an Ontonagon REA residential electric member.
- Items were installed or purchased between **January 1, 2026 – December 31, 2026**
- Review individual measures for eligibility requirements.

2. Gather copies of your receipts and invoices

- Scan or photograph all receipts and/or invoices from product purchases.
- Your paid receipt or invoice must clearly indicate the equipment type, make, model, price, and date of purchase or installation.

3. Submit Application

- Complete the online application and attach copies of all paid receipts and/or invoices that clearly indicate equipment qualifications and the installation.
- Rebate requests must be submitted within 60 days of purchase and installation.
- Incentive payment is limited to 75% of project cost.
- For the full program Terms and Conditions, please refer to here [\[link\]](#).

Appliance Rebates

Ontonagon REA members who purchase eligible home appliances can apply for helpful incentives through our rebate program. Products must be new and in working condition. Used or refurbished products are not eligible for incentives. ENERGY STAR products can be verified at energystar.gov/productfinder.

Heating and Cooling Rebates

- **A licensed Michigan mechanical contractor installation is required for all measures, except as noted.**
 - Members cannot perform the verification themselves, even if they perform the installation. Members are responsible for payment to the contractor if a service call is needed. An installation invoice must be provided with all rebate applications.

- Equipment must be new and in working condition. Used or refurbished equipment is not eligible for incentives.
- Heat pump efficiency can be verified at: AHRldirectory.org and/or ashp.neep.org.

Heating and Cooling Upgrade Rebates

- Heat Pump Water Heaters
- Efficient Circulation Pump
- Smart Thermostats
- Whole Home Dehumidifier
- Residential AC Tune UP

Heating and Cooling System Rebates

- Air-to-Water Heat Pump
- Central Air-Source Heat Pump
- Central Air Conditioner
- Geothermal Heat Pump (additional rebate for Desuperheater)
- Multi Split Air-Source Heat Pump

Payment

Ontonagon REA will review your submission and, if more information is needed, you will be contacted. Please allow 4-6 weeks for processing. Rebates of \$100 or less will be credited to your electric bill.
